This year once again the artistic direction of the Murau International Music Festival lies in the accomplished hands of the award winning **Canadian** composer, lyricist and pedagogue **Zane Zalis**.

For concert program details see <http://www.mimf.at/index.php/en/>

Lonely Planet describes Murau “in the western reaches of the Murtal (Mur Valley) on the banks of the river, an attractive town filled with pastel-coloured houses. It's also surrounded by forested hills and alpine meadows. Its close proximity to Stolzalpe to the north and the Metnitzer mountains to the south makes it an excellent base for hiking and cycling during the summer months.”

A little music, a little sightseeing, a little excursion out of the heat and concrete of the city....go for it!!!

Our Society President **Dr Heinz Seitinger** will be present and would be delighted to have society members attend, please contact him directly for tickets and/or additional information: president@austria-canada.com
