SOCIETY SOCIAL at ARCTIC FINE ARTS!!!

For many years the Inuit artists of the Canadian Arctic have created an art form that is acclaimed for its' striking imagery, exquisite beauty and occasional whimsy. In these works, the animals of the Arctic, the Inuit and their unique way of life, traditional myths and beliefs, the real and the supernatural, spring vividly to life. The exquisite artworks of the Inuit artists decorate many homes and offices worldwide and are a source of pride for Canadians and an important choice for serious art collectors.

Our esteemed member, Inuit and First Nations art and culture enthusiast, Arctic Fine Arts founder and gallery owner **Marianne Herwig** invites Society members to explore a selection of paintings, sketches, sculpture, and jewelry in the 'klein aber fein' new gallery location.
